DETAILED ACTION

Specification

The abstract of the disclosure is objected to because it is more than 150 words.
Correction is required. See MPEP § 608.01(b).

Claim Objections

Claims 2 and 5 are objected to because of the following informalities: the expression "the line A-A" in line 2 of claim 2 has no antecedent bases. Also the phrase "line A-A" that refers to the centerline of the device as shown in Fig. 2 should not be used in these claims. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 19 and 20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. These claims appear to be method claims. However the steps of making the device is not clearly stated in the claims.

Allowable Subject Matter

Claims 1, 3, 4, 7, 12-18 are allowed.

Claims 2, 5, 6, and 8-11 would be allowable if rewritten to overcome the objection set forth in this Office action.

With respect to claims 19 and 20, a product claim having same limitations as recited in these claims would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

The following is a statement of reasons for the indication of allowable subject matter: "means of attachment" language, in line 4 of claims 1 and 19, invokes 35 U.S.C. 112, sixth paragraph. Therefore, the attachment means as disclosed in the specification requires a screw and wing nut combination (see page 7 line 17 of the instant specification) that none of the prior art teach, when affixed in the manner claimed in combination with the other recited features.
